DETAILED ACTION

Allowable Subject Matter

1. Claims 1-5 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: claims 1 and 4 recite, inter alia, "An apparatus for detecting the flow of powder coating particles, said apparatus comprising a signal carrying line interconnecting said unit and said portion of said transportation line which is electrically charged by friction, wherein said portion of said transportation line is located inside said pump."

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include the above limitations. Although Williams et al. (U.S. 5,518,546) disclose a Apparatus for coating substrates with inductively charged resinous powder particles and Amey et al. (U.S. 5,800,923) disclose Acid composition comprising a coated polyvalent carboxylic acid solid particle and a powder coating comprising the same, they do not disclose the above-mentioned limitations.

Conclusion

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
